Helpful Tips and Reminders

Label Everything

Permanent markers may work fine for labeling plastic bags, diaper boxes or wipe containers, however for items that will come in contact with your baby, purchase a non-toxic marker. Label makers, masking tape or painter's tape are also useful for labeling bottles, while you may want to use iron on labels for clothes and bibs. Label bottles before you store them in the refrigerator; otherwise you will have difficulty writing on them.

Fill out Forms

You may have filled these out in advance, if not, the following forms are needed on the first day - Feeding Form, USDA Application, Shot Record and Medication Form (if applicable).

Photos

Providing your child's teacher with pictures of you and your family for their classroom will help your child feel at home. Having a familiar face to look at while you are at work helps ease the transition into their new environment.
